PROFILE

Passionate learner, looking to improve and teach if possible, a data lover (Data Entry, Data analyst) and a inveterate programmer, with expertise in Java, C++ and C#, Learning Java Script and Python.

Interested in working with people and making a work group as successful as possible with leadership and positivism.

I love technology, being self-taught since 2018, making my knowledge passion invest in myself, quick learner. The investments made include two internet connections, personal computer and a laptop to work remotely.
